Professional Summary

Junior Full Stack Developer with hands-on experience in developing scalable web applications using ASP.NET Core MVC, Web API, C#, JavaScript, HTML, CSS, SQL Server, and Entity Framework Core. Skilled in backend development, RESTful API integration, database design, and frontend development. Familiar with software development best practices, clean architecture, debugging, and version control using Git/GitHub. Strong problem-solving abilities with excellent communication, teamwork, adaptability, time management, and continuous learning skills. Passionate about building clean, maintainable, and user-focused applications.

Experience

- | | |
|--|----------------------------|
| Full Stack Intern, Orange Coding School | 02/2026 – 06/2026
Amman |
| <ul style="list-style-type: none">• Developed full-stack web applications using JavaScript, HTML, CSS, SQL Server, ASP.NET Core, and Entity Framework Core.• Designed and integrated RESTful APIs between frontend and backend systems.• Built and optimized relational databases with SQL Server and EF Core, implementing CRUD operations.• Developed real-world projects including e-commerce platforms and management systems.• Used Git & GitHub for version control and team collaboration | |

Education

- | | |
|---|-------------|
| Bachelor's Degree in Software Engineering, Al-Zaytoonah University of Jordan | 2022 – 2026 |
| GPA : 83.5 | |

Projects

- | | |
|--|-------------------|
| PropCheck – Building Inspection Platform | 05/2026 – 06/2026 |
| <ul style="list-style-type: none">• Developed a full-stack web platform connecting property owners with certified engineers to request, manage, and track building inspections.• Implemented secure authentication and role-based authorization for Clients, Engineers, and Administrators.• Built an Admin Dashboard for managing users, engineers, inspection requests, payments, and platform operations.• Integrated Stripe Payment Gateway for secure online payments and booking confirmation.• Generated PDF inspection reports for professional and downloadable property assessments.• Designed and managed relational databases using SQL Server and Entity Framework Core.• Developed RESTful APIs and responsive user interfaces following Clean Architecture principles.• Collaborated using Git & GitHub in an agile development environment. | |

Technologies: ASP.NET Core MVC, ASP.NET Core Web API, C#, SQL Server, Entity Framework Core, Stripe API, HTML, CSS, JavaScript, Bootstrap, Git/GitHub.

Gold Price Tracker

03/2026 – 03/2026

- Developed a responsive web application for tracking live gold prices based on gold karat type and currency (JOD/USD), providing users with real-time market updates through an intuitive and user-friendly interface.
- Integrated external APIs to fetch and display live gold prices dynamically using JavaScript and asynchronous data handling techniques.
- Implemented interactive UI components, responsive design, and real-time data updates to enhance user experience across different devices.
- Applied frontend development best practices, API integration, debugging, and performance optimization techniques during development.
- Technologies: HTML5, CSS3, JavaScript, REST API Integration, Git/GitHub.

Skills

Technical Skills

- C#
- ASP.NET  Core MVC
- ASP.NET  Core Web API
- Entity Framework Core (EF Core)
- Dependency Injection
- RESTful APIs
- Authentication & Authorization
- Object-Oriented Programming (OOP)
- HTML ,CSS, JavaScript

Soft Skills

- Problem-Solving
- Communication Skills
- Teamwork & Collaboration
- Time Management
- Fast Learning
- Adaptability
- Attention to Detail
- Critical Thinking

Tools

- Git & GitHub
- Visual Studio
- VS Code
- Figma
- SQL Server

Languages

Arabic

Native

English
