Professional Summary

Junior Full Stack Developer with hands-on experience in developing scalable web applications using ASP.NET Core MVC, Web API, C#, JavaScript, HTML, CSS, SQL Server, and Entity Framework Core. Skilled in backend development, RESTful API integration, database design, and frontend development. Familiar with software development best practices, clean architecture, debugging, and version control using Git/GitHub. Strong problem-solving abilities with excellent communication, teamwork, adaptability, time management, and continuous learning skills. Passionate about building clean, maintainable, and user-focused applications.

Experience

Dot net developer (nopcommerce), Orange Jordan 08/2026 – Present
nopCommerce Developer Trainee – Orange Amman

- Contributing to the development and customization of Orange's eShop using nopCommerce and ASP.NET Core.
- Developing and customizing nopCommerce themes, Razor Views, layouts, and UI components to align with Orange's branding.
- Working with C#, ASP.NET Core, Entity Framework Core, SQL Server, HTML, CSS, and JavaScript.
- Developing and extending nopCommerce plugins, services, controllers, and database functionality.
- Gaining hands-on experience with Git/GitHub, debugging, dependency injection, caching, and nopCommerce architecture in a professional development environment.

Full Stack Intern, Orange Coding School 02/2026 – 06/2026
Amman

- Developed full-stack web applications using ASP.NET Core MVC, C#, Entity Framework Core, SQL Server, JavaScript, HTML5, CSS3, and Bootstrap. Built and integrated RESTful APIs, implemented CRUD operations, and optimized relational databases to deliver scalable, high-performance applications. Collaborated in Agile environments using Git/GitHub, applying strong problem-solving, communication, teamwork, adaptability, and time management skills to successfully deliver real-world projects.

Education

Bachelor's Degree in Software Engineering, Al-Zaytoonah University of Jordan 2022 – 2026
GPA : 83.5

Skills

Technical Skills

- C#
- ASP.NET Core MVC
- ASP.NET Core Web API
- Entity Framework Core (EF Core)
- Dependency Injection
- RESTful APIs
- Authentication & Authorization
- Object-Oriented Programming (OOP)
- HTML ,CSS, JavaScript

Tools

- Git & GitHub
- Visual Studio
- VS Code
- Figma
- SQL Server

Soft Skills

- Problem-Solving
- Communication Skills
- Teamwork & Collaboration
- Time Management
- Fast Learning
- Adaptability
- Attention to Detail
- Critical Thinking

Projects

PropCheck – Building Inspection Platform

05/2026 – 06/2026

- Developed a full-stack platform connecting property owners with certified engineers for building inspections.
- Built secure authentication, role-based authorization, and RESTful APIs following Clean Architecture.
- Developed an Admin Dashboard, integrated Stripe payments, and generated PDF inspection reports.
- Designed and managed the database using SQL Server and Entity Framework Core.
- **Technologies:** ASP.NET  Core MVC, ASP.NET  Core Web API, C#, SQL Server, Entity Framework Core, Stripe API, HTML, CSS, JavaScript, Bootstrap, Git, GitHub.

LUXOURA

05/2026 – 05/2026

- Developed a full-stack e-commerce web application with product browsing, shopping cart, and order management.
- Implemented secure authentication, role-based authorization, and an admin dashboard for managing products, categories, and orders.
- Integrated **Stripe Payment Gateway** for secure online payments and order processing.
- Designed and managed the database using SQL Server and Entity Framework Core, following the MVC architecture.
- **Technologies:** ASP.NET  Core MVC, C#, SQL Server, Entity Framework Core, Stripe API, HTML, CSS, JavaScript, Bootstrap, Git, GitHub.

Gold Price Tracker

03/2026 – 03/2026

- Developed a responsive web application to display live gold prices by karat and currency (JOD/USD).
- Integrated REST APIs to fetch and update real-time gold prices using asynchronous JavaScript.

- Built a responsive and interactive user interface optimized for different devices.
- Applied frontend best practices, debugging, and performance optimization.
- **Technologies:** HTML5, CSS3, JavaScript, REST APIs, Git, GitHub.
